Complex Adaptive Leadership

Embracing Paradox and Uncertainty

NICK OBOLENSKY

GOWER

Contents

<i>List of Figures</i>	vii
<i>Acknowledgements</i>	xi
<i>Preface: What's This All About?</i>	xiii
PART I THE CONTEXT	
Chapter 1 A Journey of Discovery	3
Chapter 2 The World Wide Context – A Flow Towards Polyarchy	11
Chapter 3 The Organisational Context – Evolve or Die	21
Chapter 4 Finita La Comedia – Stop Playing Charades	33
<i>A Quick Breather Between Parts I and II</i>	43
PART II CHAOS AND COMPLEXITY	
Chapter 5 Order in Chaos, Simplicity in Complexity – The Deeper Paradox	49
Chapter 6 Getting to Grips with Chaos and Complexity	93
Chapter 7 Getting Chaos and Complexity to Work	101
<i>A Quick Breather Between Parts II and III</i>	131
PART III THE LEADERSHIP ANGLE	
Chapter 8 What is Leadership Anyway?	135
Chapter 9 What About the Followers?	145
Chapter 10 Complex Adaptive Leadership in Action	155
<i>A Final Breather Between Parts III and IV</i>	181

List of Figures

Figure 1.1	Underlying dynamics of polyarchy	5
Figure 1.2	The power of Yin/Yang opposites	8
Figure 2.1	Unprecedented pace of changing times	13
Figure 2.2	An explosion of knowledge	16
Figure 2.3	The more we know, the less certain things are	17
Figure 2.4	The greatest discontinuity of leadership assumption	19
Figure 2.5	The flow and atomisation of power	20
Figure 3.1	From chimneys to CAS via the matrix	23
Figure 3.2	Moving from machine to organism	28
Figure 3.3	Possible evolution of personal feedback within an organisation	29
Figure 3.4	Possible evolution of how strategy is set in an organisation	30
Figure 4.1	Where do the solutions come from? (part 1)	34
Figure 4.2	Where do the solutions come from? (part 2)	35
Figure 4.3	Breaking the charade via challenge and support	39
Figure 4.4	A more dynamic Q&A session	40
Figure 4.5	Skills needed in polyarchy vs. oligarchy – an example	41
Figure B1.1	Knowledge and technology drive each other	45
Figure 5.1	Yin/Yang – Chaos and order	52
Figure 5.2	The flow towards chaos and uncertainty	54
Figure 5.3	Young's amazing double slit experiment – part 1	60
Figure 5.4	Young's amazing double slit experiment – part 2	60
Figure 5.5	Young's amazing double slit experiment – part 3	61
Figure 5.6	Example of phase space	64
Figure 5.7	Examples of attractors	65
Figure 5.8	The butterfly effect	66
Figure 5.9	Where do catalytic mechanisms fit?	69
Figure 5.10	Fractal geometry and Mandelbrot set	71
Figure 5.11	Koch snowflake – example of a fractal	72
Figure 5.12	Sierpinski Gasket – 1	73
Figure 5.13	Sierpinski Gasket – 2	73
Figure 5.14	Sierpinski Gasket – 3	73
Figure 5.15	Beginnings of 'The Chaos Game'	74
Figure 5.16	Order out of chaos ...	75
Figure 5.17	Fractal resonance of Science and Leadership Theory	76
Figure 5.18	Examples of bifurcation points	77
Figure 5.19	Buttons experiment	78
Figure 5.20	Buttons and threads experiment	79
Figure 5.21	Call centre result	82
Figure 5.22	The more connection points, the more the complexity	86

Figure 5.23	Exponential complexity	86
Figure 5.24	Boltzmann thought experiment on complexity	87
Figure 5.25	Post-Normal Science when stakes and complexity are high	90
Figure 6.1	Network of relationships is key	98
Figure 6.2	Yin/Yang and the Four + Four model for leading complexity	99
Figure 7.1	Four + Four principles	104
Figure 7.2	Examples of purpose	105
Figure 7.3	Framework for success	108
Figure 7.4	Barriers for leaders and followers	110
Figure 7.5	The what, who and how of strategy	115
Figure 7.6	Examples of skills needed	117
Figure 7.7	Motivational states of being	118
Figure 7.8	Skill/will matrix	120
Figure 7.9	Introduction of 360 degree feedback – possible steps	124
Figure 7.10	Four + Four dynamic	125
Figure 7.11	Yin/Yang of the Four + Four	126
Figure 7.12	Interdependencies of the Four + Four principle	127
Figure B2.1	Paradoxical principles of Four + Four model	132
Figure 8.1	Leadership vs. Management – Take 1	135
Figure 8.2	Leadership vs. Management – Take 2	136
Figure 8.3	Leadership vs. Management – Take 3	137
Figure 8.4	Hersey/Blanchard Situational Leadership model (adapted)	139
Figure 8.5	Situational Leadership (adapted) with Goleman's approach	140
Figure 8.6	Average score distribution of the Situational Leadership model (adapted)	141
Figure 8.7	Eisenhower matrix (adapted) – typical time profile for executives	142
Figure 8.8	The stress of leadership	143
Figure 9.1	Skill/will matrix	147
Figure 9.2	'Level 5' followership	149
Figure 9.3	Behaviour breeds behaviour	150
Figure 9.4	Moving people towards Level 5	151
Figure 9.5	A typical vicious circle for leaders	152
Figure 10.1	Complex Adaptive Leadership model – basis	160
Figure 10.2	Leader as a traditional leader – either tells or sells	161
Figure 10.3	The leader as a 'follower'	163
Figure 10.4	Differing types of effort for the strategies	163
Figure 10.5	Leadership roadmap and Yin/Yang	164
Figure 10.6	Skill/will possible strategy	164
Figure 10.7	Skill/will and leadership strategies	165
Figure 10.8	Point attractor towards self-organisation	168
Figure 10.9	Periodic attractor for improvement	169
Figure 10.10	Point attractor towards transcended state	170
Figure 10.11	Periodic attractor within state of change	170
Figure 10.12	Coaching attractor of Sell and Involve	171
Figure 10.13	GROW model example questions	172
Figure 10.14	Types of questions that can be used with GROW coaching	173
Figure 10.15	Coaching attractor linked to questioning technique	174

Figure 10.16	Directive attractor of Tell and Sell	175
Figure 10.17	Development attractor of Involve and Devolve	176
Figure 10.18	Reminder attractor using Tell and Devolve strategies	176
Figure 10.19	Summary of paired periodic attractors	177
Figure 10.20	Typical change management strange attractor	178
Figure 10.21	Complex Adaptive Leadership summary strange attractor	179
Figure 11.1	KISS: Keep, Increase, Start, and Stop	186
Figure A.1	The Yin/Yang model of Tao	189
Figure B.1	John Adair's Leadership Model (adapted)	196
Figure B.2	After John Adair's model (adapted) – a possible extension and example of skills	196
Figure B.3	John Adair's Functions of Leadership (1)	197
Figure B.4	John Adair's Functions of Leadership (2) (adapted)	198
Figure B.5	John Adair's Functions of Leadership – polyarchic dynamic	200
Figure B.6	Four + Four overlaid onto John Adair's model	200
Figure C.1	Political definition of polyarchy	206
Figure C.2	Democracy as a bridge between oligarchy and polyarchy	208
Figure C.3	Example of UK according to Dahl's theory	208
Figure C.4	UK example according to interpretation of modern reality	212
Figure C.5	UK possible long term trend	217
Figure C.6	Relevance of Four + Four principles to political polyarchy	219
Figure D.1	LEAD Programme – two development areas and six key competencies	222
Figure D.2	LEAD Programme – 30+ key curricular subjects	222
Figure D.3	LEAD: Programme dynamic	225
