<i>List of Figures</i>		<i>vii</i>
<i>List of Tables</i>		<i>ix</i>
<i>Foreword</i>		<i>xi</i>
<i>Preface</i>		<i>xv</i>
<b>CHAPTER 1</b>	<b>Uncertainty and Risk</b>	<b>1</b>
	Current sources of uncertainty	1
	Responding to uncertainty	2
	Distinguishing between uncertainty and risk	4
	A pragmatic distinction	6
	Three refinements	8
	Not all uncertainty is risk; all risks are uncertain	10
<b>CHAPTER 2</b>	<b>Risk and Projects</b>	<b>11</b>
	What's wrong with projects?	11
	Why are projects risky?	13
	Why manage risk in projects?	17
	'Risks' or 'risk'?	17
	Why is risk management important to projects?	19
<b>CHAPTER 3</b>	<b>Managing Risk in Practice</b>	<b>23</b>
	Towards a risk management process	23
	From narrative to reality	26
	Describing the risk process	30
	Not 'one-size-fits-all'	48
	More than a process	49
<b>CHAPTER 4</b>	<b>Risk and People</b>	<b>53</b>
	Understanding risk attitude	54
	Influences on the risk attitude spectrum	58
	Risk attitudes and decision-making	59
	Risk attitudes and the risk process	60
	Managing risk attitudes	62
	People plus process	64

<b>CHAPTER 5</b>	<b>Integrating Risk Management with Wider Project Management</b>	<b>65</b>
	Managing risk throughout the project lifecycle	65
	Contribution of risk management to other project management disciplines	70
	‘Built-in not bolt-on’	72
<b>CHAPTER 6</b>	<b>The Bigger Picture</b>	<b>75</b>
	Strategy, tactics and projects	75
	Hierarchy of objectives, hierarchy of risk	78
	Project risk management in the programme context	80
	Enterprise risk management as an integrative framework	82
<b>CHAPTER 7</b>	<b>Making Risk Management Work</b>	<b>83</b>
	Risk energetics	83
	Internal factors	86
	External factors	88
	Risk energetics across the project lifecycle and beyond	91
	Proving it works	92
	Why bother?	93
	And finally...	95
